

Math:

Stacking Measuring Cups

Learning Value:

This activity promotes development and learning by encouraging children to compare and categorize objects, as well as use descriptive language such as big and small.

Materials Needed:

- ▶ Measuring cups of assorted sizes

Participants:

This activity only requires parent interaction for a short period of time. Infants can explore the measuring cups without guidance.

Directions:

Step 1: Offer measuring cups upside down in a row by size in front of your infant. Talk about the different sizes as you stack them on top of each other with the biggest cup on the bottom.

Step 2: Allow your infant to keep exploring the measuring cups without guidance.

Bright Horizons.
